

Watermain Replacement Project Update

Farrington Place	Garrison Place
Huntington Drive	Howsington Place
Harrison Place	Harbinson Place
Henderson Place	Hollingston Pace
Hamilton Place	Hooverton Place

Project Schedule: Start – Work will begin on or about January 27, 2020 between Farrington and Garrison Places and will continue in a generally counterclockwise sequence around the neighborhood. Resident parking lots will not be disturbed. Vehicular access via Huntington Drive will be maintained with short delays and accommodations (steel plating) will be utilized for access if necessary. Visitor parking spaces that are marked with signage must vacate the area by 7:00 A.M.. Dashed lines on the attached map indicate area of construction. Construction will consist of installing new 8” and 10” watermain and connections to existing water services. Weather permitting, work will continue without interruption until approximately May 1, 2020.

Service interruption estimates: During watermain tie-in (3 qty) to Twin Rivers Drive. Advance notice will be given when exact dates are known.

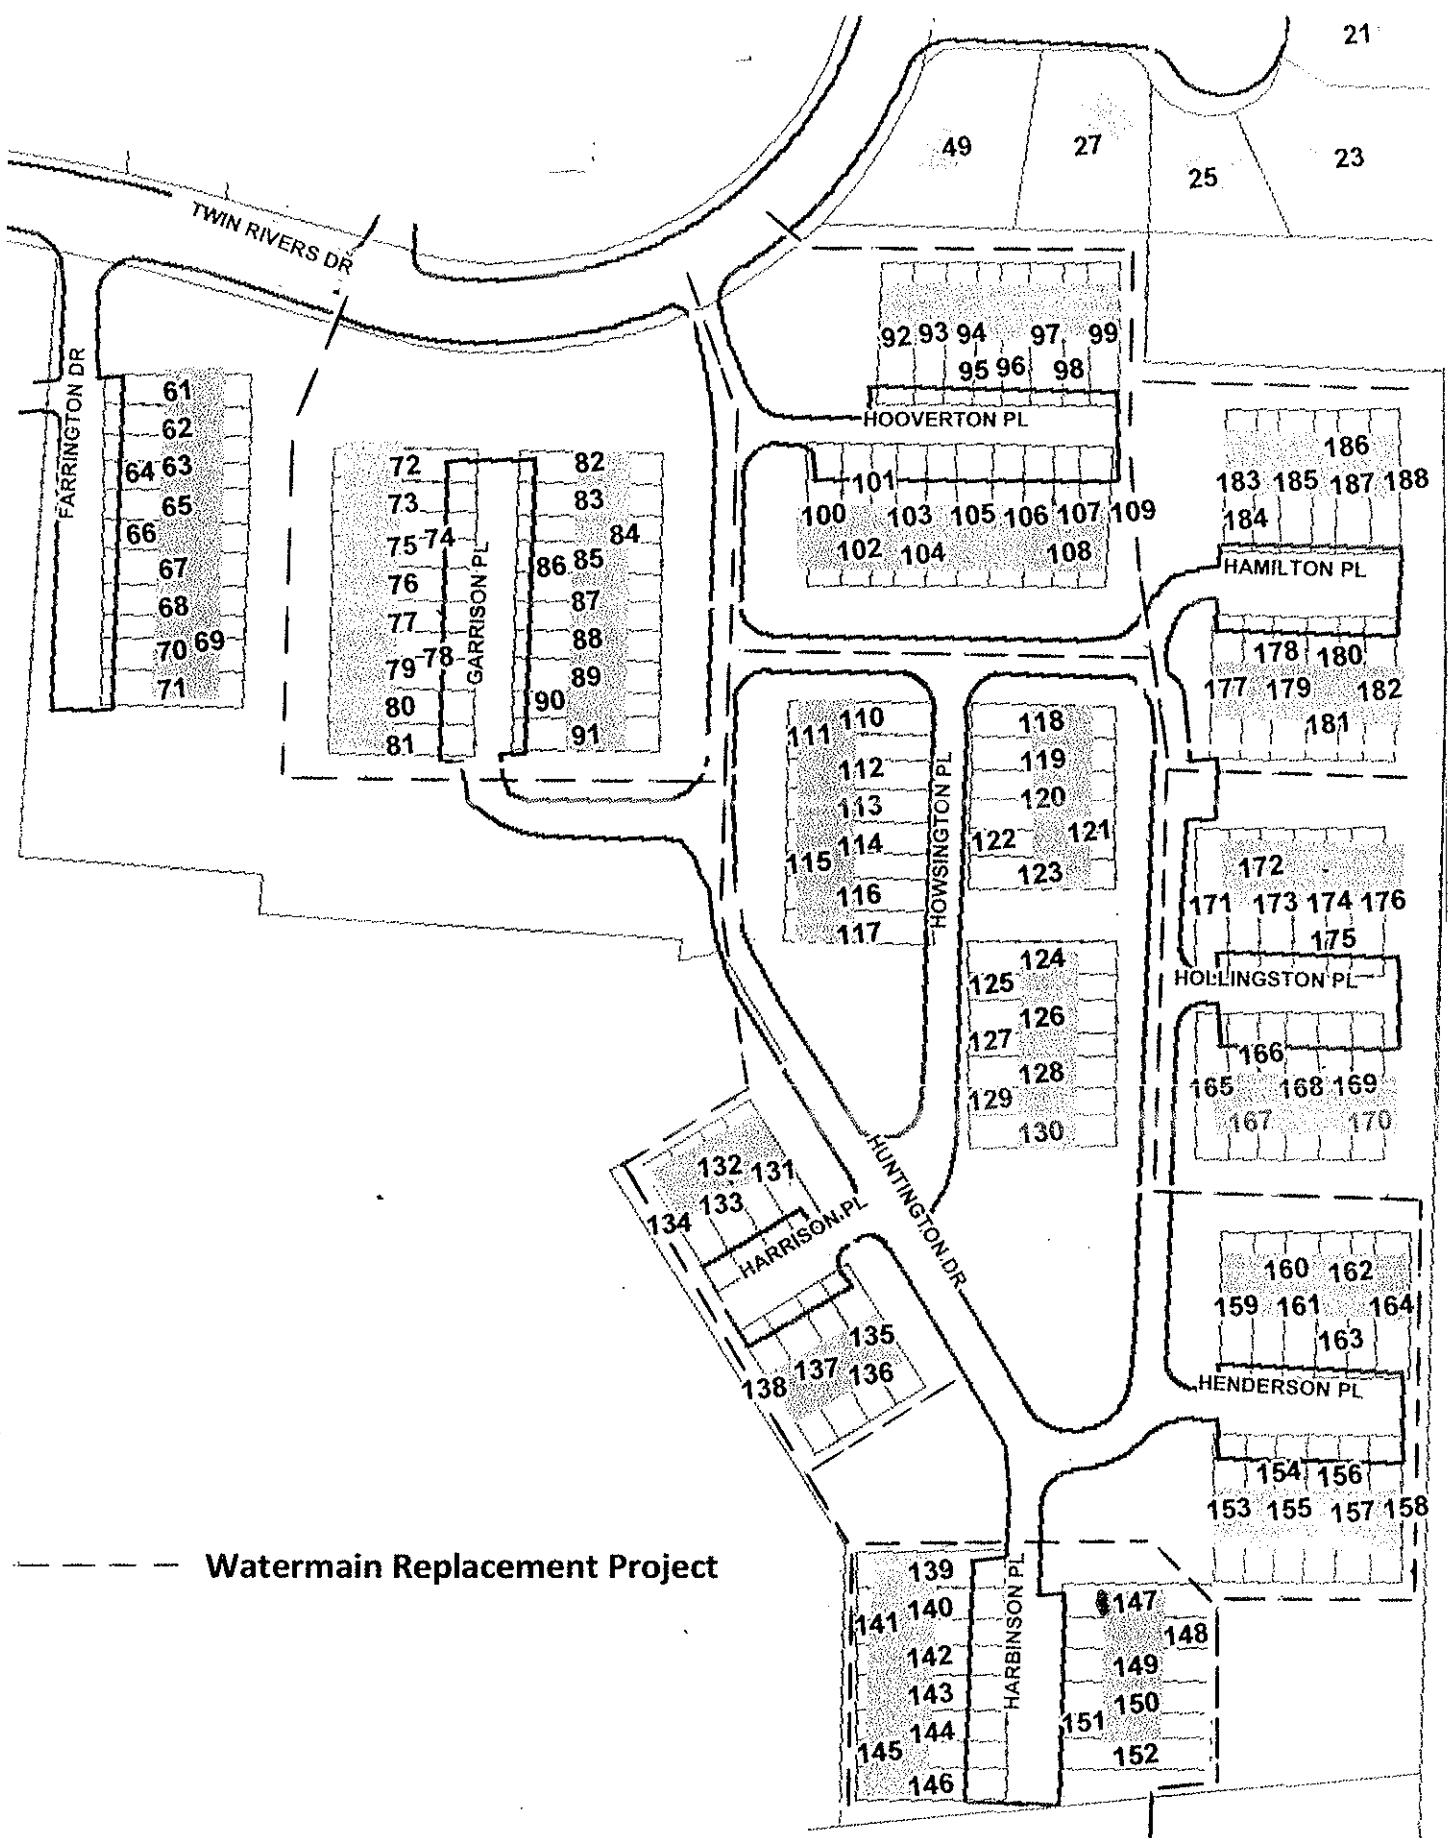

We apologize in advance for the inconvenience this infrastructure improvement project will cause. East Windsor MUA has a \$25 million dollar (20 year) capital watermain replacement program that started in 2015. These projects will enhance water quality and fire flows in your neighborhood. This will also reduce or eliminate future water main breaks that you have experienced in the past.

If you have any questions or concerns please do not hesitate to contact us. During this project an East Windsor MUA inspector/representative will be onsite to answer any questions or concerns.

Thank You for your cooperation and patience,

East Windsor Municipal Utilities Authority
