The contractor shall provide written notice to its subcontractors of the responsibility to submit proof of business registration to the contractor.

Before final payment on the contract is made by the contracting agency, the contractor shall submit an accurate list and the proof of business registration of each subcontractor or supplier used in the fulfillment of the contract, or shall attest that no subcontractors were used.

For the term of the contract, the contractor and each of its affiliates and a subcontractor and each of its affiliates [N.J.S.A. 52:32-44(g)(3)] shall collect and remit to the Director, New Jersey Division of Taxation, the use tax due pursuant to the Sales and Use Tax Act on all sales of tangible personal property delivered into this State, regardless of whether the tangible personal property is intended for a contract with a contracting agency.

**AMERICAN GOODS AND PRODUCTS**

Only manufactured and farm products of the United States, wherever available, shall be furnished under this contract.

**N.J.S.A. 2A:30A-2** now holds a prime contractor's bills to be deemed acceptable 20 days after receipt unless the payor provides a written statement of an amount to be withheld and the reason for withholding. Importantly, government entities that must vote on authorizations for payment can be excepted from this 20-day rule by expressly providing in bid specifications **and** contract documents that bill approvals will occur at the first public meeting after receipt and bill payment will occur during the subsequent payment cycle. Our bid specifications and contracts need to be revised accordingly.

If payment is not made pursuant to the above mentioned rules, the delinquent municipality will be liable for the amount due plus interest at a rate equal to the prime rate plus one (1) percent. The interest period begins on the first day of delinquency and ends on the day in which the check for payment has been drawn. This interest penalty provision, however, does not apply to certain transportation projects for which the federal government provides funding.

In addition to the above mentioned penalty provision, a prime contractor may, after providing seven (7) calendar days written notice, suspend performance under the contract for nonpayment if the payor has not provided a written statement of the amount to be withheld and the reason for withholding and has not engaged in a good faith attempt to resolve the billing dispute. This provision also does not apply to certain transportation projects for which the federal government provides funding.

All contracts for the improvement of structures must provide that billing disputes may be submitted to an alternative dispute resolution process, such as mediation or arbitrations. This provision applies only to billing disputes, however, and thus need not apply to disputes over bid solicitation or the awarding, formation, or interpretation of contracts.

### **Pay to Play Law**

The Contractor is advised of the responsibility to file an annual disclosure statement on political contributions with the New Jersey Election Law enforcement Commission (ELEC) pursuant to N.J.S.A. 19:44A-20.13 (P.L. 2005, c.271, s.3) if the Contractor receives contracts in excess of \$50,000 from public entities in a calendar year. It is the Contractor's responsibility to determine if filing is necessary. Additional information on the requirement is available from ELEC at (888) 818-3532 or at [www.elec.stae.nj.us](http://www.elec.stae.nj.us).
