### **Availability of Monitoring Data for Unregulated Contaminants for the East Windsor MUA**

Our water system has sampled for a series of unregulated contaminants. Unregulated contaminants are those that don't yet have a drinking water standard set by EPA. The purpose of monitoring for these contaminants is to help EPA decide whether the contaminants should have a standard. As our customers, you have a right to know that these data are available. If you are interested in examining the results, please contact Anthony Palombi, Water Superintendent at (609) 443-6000 ext. 7607 or 7 Wiltshire Dr., East Windsor, NJ 08520.
